OZOFRESH provide the latest Ozone technology at a price you can afford, eradicating all bacterial odours, leaving your premises smelling of fresh air without the use of chemicals.

Ozofresh air purifiers are the natural choice for any care home looking to:

- Help meet CQC essential standards.
- Keep that smell of fresh air, and reduce the smells of those overpowering scented air fresheners.
- Reduce the risk of transfer of bacteria from person to person and bacterial infection outbreaks.
- Save money on costly chemical air fresheners that only mask bad smells.

Plug In - for background air purifying

Continental - used in public areas for hygiene

Corona - portable and versatile, move from room to room
